

How to add a Proxy account:

- login to <http://oraqs.research.ucsb.edu>
- if this is the first time logging in, you'll have to pick your challenge question first.
- click on MyInfo at the top of the page
- click on add proxy
- enter last name of person who needs the account and search
- find the person you want and click "select" on the left side of page
- you have now given them an account.
- as you create, renew or modify your protocols, you will need to add a specific proxy to each individual protocol.
