

## IACUC Protocol Training Roster

Principal Investigator	
Protocol Number and	

Please provide the names of all the individuals who will work with animals on this project, **include the principal investigator (PI)**. This page will not be made available to the public. Provide email addresses. Include all investigators, student employees, post-doctoral researchers, staff research associates, post-graduate researchers and laboratory assistants who will actually work with LIVE animals. You do not need to include the staff of the Biology or Psychology Vivaria.

**The principal investigator is responsible for keeping this roster current. If any staff is added or removed from this project, you must amend the roster by sending the IACUC a memo describing any changes. This can be done via email (IACUC@lifesci.ucsb.edu).**

First Name, Last Name	Position	Campus Phone extension	Home Phone	Email Address	Occupational Health and Safety Enrollment	Basic Level Websites: 1- Citiprogram 2- Zoonotic Diseases 3- EHS Lab Safety 4- UC Davis Risk Tool	Species Training: Species Specific Modules OR Species Guidelines List dates of completion	Procedural Training: 1-Aseptic Surgery Module if required 2- Reducing Pain and Distress if required List procedure(s) and date completed
<b>**Example**</b> Marcia Thomas	Researcher	0000	684-0000	thomas@ucsb.edu	9/2007	10/02/2008	mice 09/2008 rabbits 6/2008	blood collection 1/2006 anesthesia 2/2008

**\*Occupational Health & Safety Program (OSHP):** At UCSB, everyone on this roster must submit an **Animal Contact Medical Review Form** directly to the UCSB IACUC Office. Please place the confidential form in an envelope with your signature across the seal and your name clearly written on the front. The IACUC Office will forward your form to the UCSB Occupational Physician. **Non-UCSB personnel must be covered by an extramural OHSP and provide written verification of an equivalent enrollment from their Home Institution.**

**Training:** The PI is responsible for ensuring that their employees and students are adequately trained, both in the specifics of their tasks and in the requirements of the Federal Animal Welfare Act and appropriate governing authorities. Everyone must complete Basic Level training prior to IACUC Protocol approval. Everyone on this list should have read the IACUC Protocol and be kept informed of any IACUC approved changes. Contact the Campus Veterinarian at (805) 893-2333 or the IACUC Office at (805) 893-5855 for further information or assistance with training.
